

WHY CATHOLIC SCHOOLS?

An Integrated K–12 System

In Catholic schools today, a love of learning starts in Pre-K and continues seamlessly through 12th grade. Our schools offer an excellent, nurturing, values-centered education in a structured environment that helps children of all backgrounds grow and strive for their highest potential.

Inspiring Hearts and Minds to Succeed.

Catholic schools offer a unique combination of academic and spiritual development that helps children get the best start in life.

- Our schools offer a mix of daily in-class and hybrid learning, and full health and safety protocols
- Our curriculum integrates modern technology with traditional classroom instruction – including the technology to offer both remote and in-class learning across all grades
- Many schools offer early drop-off and late pick-up to accommodate parents’ schedules
- Financial assistance awards cover a significant portion of tuition for qualifying families at participating schools

Catholic Values.

Our students learn in an environment where respect and service to others are always part of the curriculum. These values enrich not only our students, but also their families, parishes and communities.

Achievement.

Through our enhanced individualized instruction, we motivate students to do their best. We help them understand their talents and build on their strengths to achieve success in school and beyond.

Academic Excellence.

We offer a future-focused curriculum that prepares students to lead successful, productive lives. In addition to Math, Religion, English Language Arts, History and Science, our schools have expanded technology in the classroom, expanded STEM programs, introduced robust literacy tools to develop articulate and well-read children, and evolved art programs to stimulate creativity in young minds.

Results.

Through 2019, New York State Education Department Examination results show that Catholic Schools in the Archdiocese of New York achieved significant year-over-year performance growth in **each** of the last five years, out-performing New York State and City Schools, and most Charter Schools.

In addition, over 99% of Catholic high school seniors graduate, and 99% of those grads go on to college or post-secondary education.
